

STOCKHOLM FURNITURE FAIR 2017

## A35:10

## SOUND BUBBLE

The Sound Bubble embeds the user with a semi-transparent sound environment. Experience it @sthlmfurnfair 2017 in A35:10.

The sound bubble is the offspring of the research project collaboration "better sound environments in offices" between University West and University College of Arts, Crafts and Design.

The project was performed through laboratory tests at Konstfack and field studies conducted at Volvo.

Further studies generated a collaboration between Soundmark, Ricardo Atienza phd in architecture, Lexter Sounddesign and Edsbyn in order to design a furniture able to provide a better and personalized sound environment.

## PRESS MEETING, TUE 7/2 AT 11:30

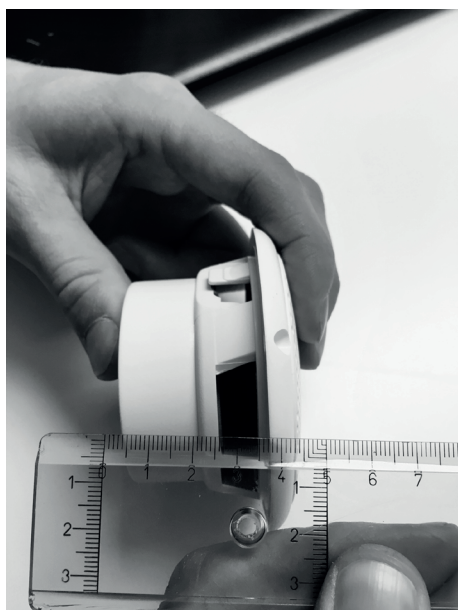

Experience the sound bubble in A35:10 at SFF 2017.

With its roots in strong handicraft traditions, Edsbyn has been furnishing Sweden and the rest of the world since 1899. We quickly adapt to modern technology but our ability to deliver products tailored for the customer is never compromised. We continue our Nordic heritage today with leading designers such as Jens Fager, Andreas Engesvik, Thomas Eriksson Architects, and supply furniture with modern Nordic design and functionality to world-class businesses and organisations.
