HUG CHAIR

This is a chair composed for comfort, accessibility and function. The challenge has been in working with the pressed veneer to achieve bold curves which are comfortable yet retain the clean lines and strength of the material.

ACCESS GRIP

DESIGN ANDREAS ENGESVIK, OSLO

Designed and cast handles offer a tactile experience from the designer's own hands. Working at 1:1 scale, our designer Andreas Engesvik, Oslo, has designed the model for the Access series most exclusive cast aluminium fittings by hand.

"An impression of the human hand for the human hand"
//Andreas Engesvik

SUSTAINABILITY

A GUIDING PRINCIPLE

Edsbyn strives to be your natural choice when making furniture selections while considering sustainability and care for the environment. We are constantly working to improve our production processes and carefully select all of the raw materials we use.

CERTIFIED PRODUCTION

Edsbyverken is certified according to quality and environmental management standards: ISO 9001 and ISO 14001.

We expect materials from our suppliers to fulfil the criteria for environmental certification – and we require our suppliers to accept ethical and social responsibility, just like Edsbyn does.

CERTIFIED PRODUCTS

Certified according to Möbelfakta means: Technical quality standards for sustainability, stability and safety and for surface resistance.

Environmental standards for materials and products. The environmental standards primarily relate to raw materials and components used during manufacture, while the product standards relate to the completed item of furniture.

Producers and subcontractors undertake systematic occupational health and safety work and comply with current occupational health and safety legislation.

THE NORDIC ECOLABEL

Edsbyn was the first manufacturer of office furniture to be Nordic Ecolabelled.

Our latest example of a Nordic Ecolabelled product is the Ease screen system which is manufactured from a material normally used for sound absorption in vehicles. It consists of recycled textiles and PET bottles, which makes Ease a good example of sustainable product development.

X-PRESS

When getting started is more than urgent.

The X-Press range contains a selection of our most popular furniture for the work space.

Ready for delivery within five days.
