

ELECTRICAL HEIGHT ADJUSTABLE DESKS BY EDSBYN

SIT 'N' STAND

SIT 'N' STAND

The best working position is always the next working position.
Vary between sitting and standing, or make just small adjustments to find your best working position.

Edsbyn's Sit 'n' Stand desks are constructed to cope with daily use in tough conditions and offer high stability, strong lifting force and a low noise level.

We only use high-quality electronics and mechanical parts to ensure the reliability, smooth function and long lifetime.

SUSTAINABILITY

A GUIDING PRINCIPLE

Edsbyn strives to be your natural choice when making furniture selections while considering sustainability and care for the environment. We are constantly working to improve our production processes and carefully select all of the raw materials we use.

CERTIFIED PRODUCTION

Edsbyverken is certified according to quality and environmental management standards: ISO 9001 and ISO 14001.
We expect materials from our suppliers to fulfil the criteria for environmental certification – and we require our suppliers to accept ethical and social responsibility, just like Edsbyn does.

CERTIFIED PRODUCTS

Certified according to Möbelfakta means: Technical quality standards for sustainability, stability and safety and for surface resistance. Environmental standards for materials and products. The environmental standards primarily relate to raw materials and components used during manufacture, while the product standards relate to the completed item of furniture. Producers and subcontractors undertake systematic occupational health and safety work and comply with current occupational health and safety legislation.

NORDIC SWAN ECOLABEL

Edsbyn was the first manufacturer of office furniture to be Nordic Ecolabelled.
Our latest example of a Nordic Ecolabelled product is the Ease screen system which is manufactured from a material normally used for sound absorption in vehicles. It consists of recycled textiles and PET bottles, which makes Ease a good example of sustainable product development.

SIT 'N' STAND

Edsbyn's Sit 'n' Stand desks are constructed to cope with daily use in tough conditions and offer high stability, strong lifting force and a low noise level.

We only use high-quality electronics and mechanical parts to ensure the reliability, smooth function and long lifetime.
