

# ARC STOOL

DESIGN JENS FAGER

When Jens Fager was granted the honor of designing a stool for the Swedish National Museum, he enlisted the help of Edsbyn.

Arc Stool was born – A solid wooden stool with a characteristically Nordic design. The elegant lines and curves of the seat are borrowed right from the Swedish National Museum's architectural style. The masterfully turned legs lend the stool its finer details, reflecting Jens deep respect for the wood.

*"The Arc Stool will stand the test of time, not just in the halls of the new Swedish National Museum but in many rooms the world over." – Jens Fager*
