

# GATHER

DESIGN ANDREAS ENGESVIK

Gather is a furniture series that allow you to create the most suitable configurations for your needs without compromising on aesthetics or comfort. Gather is perfect for the workplace or even the home.

The Sofa stretches in a stately manner from armrest to armrest, with generous and well-fitted proportions. The spacious armchair has both attitude and comfort, with a slender frame that gives the seat a hovering expression. Gather Modular Sofa combines the best from two worlds; the practicality of a modular system and the aesthetics of a stand-alone. Create the most suitable configurations for your needs. The holistic expression of Gather is based on its chunky and fitted volumes intersected by the characteristic seam running around the sofa.
