

NEAT GREEN

DESIGN TEA

Neat Storage has a light streamlined appearance for the contemporary office. By using slender dimensions for the frame and doors, we have given Neat its own unique expression.

Neat Storage are as attractive from the back as the front and provide a plethora of variation opportunities. Combine the storage with Neat Green, a decorative and functional plant box that is placed on top of the Neat Storage unit or directly on a stand.

Every office needs some plants not only to improve air quality, but also to lend a peaceful feel to the room" – TEA
