Choice

A minimalist, sustainable, functional, flexible, scalable, affordable and modular table with an contemporary appeal.

Regardless of the form of the meeting, working methods or numer of people, there is one Choice Table that meets the need in today´s and tomorrow´s workplaces.
The system contains few components with different stand solutions, a flexible measuring chain and a wide range of materials. This creates many opportunities and gives a great deal of freedom to choose the design and function that best suits both users and businesses.

MÖBELFAKTA

Reuse

Reuse is encouraged by Edsbyn's timeless modern design, which resists the changing tastes of fashion, together with high product quality maintained throughout the entire life-cycle. This facilitates reuse, which is coordinated with our resellers. At Edsbyn, we work constantly to improve our processes and furniture production – in order to be the obvious choice for those who select office furniture on the basis of environmental and sustainability factors.

Add the right Power and Charging Solutions

Complement your CHOICE Table with integrated Powerdots that provide easy access to power, data and media. When you need it, where you need it. Here is a selection in black, but powerdots are available in a variety of sizes, designs and in several countries electrical standards. When the tecnology is updated, it is easy to change from, for example, a USB-A to a USB-C, which makes powerdots a sustainable alternative. Just like the table.

Charging for all needs and different workplaces

Power and Charging should be simple, flexible and match your environment.
The need to be able to charge and connect is a must in today's workplaces.
Remember that the number of people and the number of powerdots must match to cover the need for power, data and media. We recommend having 1-2 outlets available for 2 users. Here we show some suggestions for placement of powerdots / users in different workplaces / working methods.

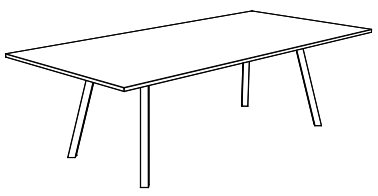
Bevelled edge

Corner radius

Straight corner



Squared legs

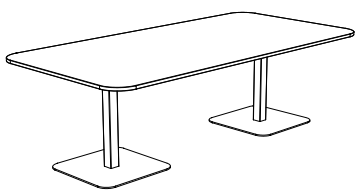


Plate based foot

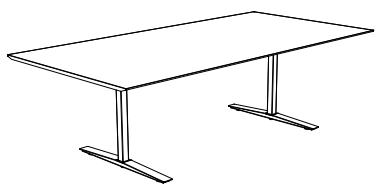

T-shaped foot

Facade Edge

On our Choice Conference Table the choice beveled edge profile is on the long sides of the table. The shorter sides have straight edges.

When it comes to our choice work table, the choice beveled edge profile is only on the user facing side of the desktop, the short sides and back side is straight.

Tip

Remember to adjust the size of the table by number of seats and type of chair to be used.
Count on 600 mm for a chair without armrests and 700 mm for an armchair.
