## MATERIAL & COLOURS

Access Storage comes in a broad range of authentic veneers in Birch, Oak, Ash, laminate and with beautifully painted surfaces.

The Fern Green and Sandy Grey shades have been specially designed by Jens Fager. Fern Green was inspired by bracken and our serene Swedish forests. Sandy Grey conveys a sense of boulders crumbling into sand.

*"Beautiful, subdued and serene"*  
//Jens Fager

# SUSTAINABILITY

A GUIDING PRINCIPLE

Edsbyn strives to be your natural choice when making furniture selections while considering sustainability and care for the environment. We are constantly working to improve our production processes and carefully select all of the raw materials we use.

**CERTIFIED PRODUCTION**

Edsbyverken is certified according to quality and environmental management standards: ISO 9001 and ISO 14001.

We expect materials from our suppliers to fulfil the criteria for environmental certification – and we require our suppliers to accept ethical and social responsibility, just like Edsbyn does.

**CERTIFIED PRODUCTS**

Certified according to Möbelfakta means: Technical quality standards for sustainability, stability and safety and for surface resistance. Environmental standards for materials and products. The environmental standards primarily relate to raw materials and components used during manufacture, while the product standards relate to the completed item of furniture.

Producers and subcontractors undertake systematic occupational health and safety work and comply with current occupational health and safety legislation.

**NORDIC SWAN ECOLABEL**

Edsbyn was the first manufacturer of office furniture to be Nordic Ecolabelled.

Our latest example of a Nordic Ecolabelled product is the Ease screen system which is manufactured from a material normally used for sound absorption in vehicles. It consists of recycled textiles and PET bottles, which makes Ease a good example of sustainable product development.

# ACCESS

A completely new storage line with the focus on function and choice. Edsbyn has been producing quality customised furniture for over 100 years.

The Access Series is our response to new demands to fit the next generations workspace.
