Escape 2400x800

Design Mario Ruiz

Escape is a system of different modules that allows you to create big or small islands. They are designed to offer a retreat for people that want to relax, to contemplate away from the stress and movements in a busy environment. What might look like simple shapes are in fact the hardest to achieve so that they work both technically and aesthetically. These

modules are square and rectangular with soft, round curves, almost like stones or pebbles found in a river and the combinations you can create are countless. From basic to extensive, Escape can stretch out into a corridor and fill up a great hall or be scaled down into a small waiting area, connecting different interior zones in a work or meeting space.

Climate-Smart

All materials and surface treatments are approved for public environments with high wear and tear, and will last for many years without the need for maintenance.

Certified according to Möbelfakta

Technical quality standards for sustainability, stability, safety and for surface resistance. Environmental standards for materials and products.

ISO Certified Production

Edsbyverken is certified according to quality and environmental management standards ISO 9001 and ISO 14001.

Color & Trim

Customized furniture with extensive configuration possibilities is our specialty. Edsbyn's selected palette, Color & Trim, showcases a small selection of the color schemes offered for standard orders.

All materials are carefully selected with environmental sustainability as our top priority. All finishes offered in Color & Trim are sustainable and suitable for environments with heavy daily wear and tear.

Explore the complete selection of materials and colors available for you to choose from at my.edsbyn.com

Edsbyn Factory

The secret of our success is the ability to change and adapt. What began in 1899 as a small carpentry, grew in to be one of the largest furniture factories in the Nordics. Between 1934–1984 we produced wooden skis for the Ministry of Defence, Olympic gold winners and families. Out of the waste material we manufactured pin-back chairs, which were used to furnish the Swedish welfare state.

As one of Sweden's oldest furniture companies, with a firm base in Edsbyn, we can proudly say that we have played a part in making the label Swedish Design synonymous with good form and function.
