

Adjust the length of the sofa to meet the unique needs of the space.

Everlong Sofa

Design Jens Fager

The length of the Everlong sofa can be adjusted to meet the architect's vision and the need for unique solutions. Much design focus has been placed on the harmony in the leg frame's meeting with the back and seat, which also makes the Everlong Sofa beautiful as a standalone piece in a room. Everlong can also be arranged with backrests back-to-back down the centre.

"Everlong has an honest, clear and open structure that makes it easy to picture in a wide variety of environments. I am very satisfied with the fact that we have used the machines in the best possible ways so that we want to highlight all the details of the metal work instead of covering them up with a fabric."
/Jens Fager

Climate-Smart

All materials and surface treatments are approved for public environments with high wear and tear, and will last for many years without the need for maintenance.

Certified according to Möbelfakta

Technical quality standards for sustainability, stability, safety and for surface resistance. Environmental standards for materials and products.

ISO Certified Production

Edsbyverken is certified according to quality and environmental management standards ISO 9001 and ISO 14001.

Color & Trim

Customized furniture with extensive configuration possibilities is our specialty. Edsbyn's selected palette, Color & Trim, showcases a small selection of the color schemes offered for standard orders.

All materials are carefully selected with environmental sustainability as our top priority. All finishes offered in Color & Trim are sustainable and suitable for environments with heavy daily wear and tear.

Explore the complete selection of materials and colors available for you to choose from at my.edsbyn.com

Edsbyn Factory

The secret of our success is the ability to change and adapt. What began in 1899 as a small carpentry, grew in to be one of the largest furniture factories in the Nordics. Between 1934–1984 we produced wooden skis for the Ministry of Defence, Olympic gold winners and families. Out of the waste material we manufactured pin-back chairs, which were used to furnish the Swedish welfare state.

As one of Sweden's oldest furniture companies, with a firm base in Edsbyn, we can proudly say that we have played a part in making the label Swedish Design synonymous with good form and function.
