

# Neat Green

Design TEA

Neat Storage units are as attractive from the back as the front and provide a plethora of variation opportunities. Combine the storage with Neat Green, a decorative yet functional plant box that is placed on top of the Neat Storage unit or directly on a stand/base. The decorative trellis is a complement for the Neat Green flower box. The medallion-shaped net is ideal for climbing plants and make the trellis a room divider where you decide on the transparency with your choice of plants.

Design TEA

## Configuration

Floor standing with trellis

Upper unit

Floor standing without trellis
