Design Thomas Eriksson

When the floor space is limited you need solutions that can make use of every inch. Neat Table is a desk with the right proportions and features to give you an effective workspace where it is needed. Neat Table is a desk which really fits in everywhere, no matter if it is in a hotel, office or bedroom. Neat Table is characterised by its clear lightness and delicate profile of the table top and leg frame.

The metal leg frame and wooden tabletop, which can be combined in different colors, along with electrical outlets and an elegant apron up front, make this table a long-awaited addition to the Neat series. The shape is also the result of an economical use of materials; no component should be too advanced or heavy, and none should be thicker than necessary to conserve resources.

### Climate-Smart

All materials and surface treatments are approved for public environments with high wear and tear, and will last for many years without the need for maintenance.

### Certified according to Möbelfakta

Technical quality standards for sustainability, stability, safety and for surface resistance. Environmental standards for materials and products.

### ISO Certified Production

Edsbyverken is certified according to quality and environmental management standards ISO 9001 and ISO 14001.

### Color & Trim

Customized furniture with extensive configuration possibilities is our specialty. Edsbyn's selected palette, Color & Trim, showcases a small selection of the color schemes offered for standard orders.

All materials are carefully selected with environmental sustainability as our top priority. All finishes offered in Color & Trim are sustainable and suitable for environments with heavy daily wear and tear.

Explore the complete selection of materials and colors available for you to choose from at [my.edsyn.com](http://my.edsyn.com)

### Edsbyn Factory

The secret of our success is the ability to change and adapt. What began in 1899 as a small carpentry, grew in to be one of the largest furniture factories in the Nordics. Between 1934–1984 we produced wooden skis for the Ministry of Defence, Olympic gold winners and families. Out of the waste material we manufactured pin-back chairs, which were used to furnish the Swedish welfare state.

As one of Sweden's oldest furniture companies, with a firm base in Edsbyn, we can proudly say that we have played a part in making the label Swedish Design synonymous with good form and function.
