## Troy Trolley

Design Mario Ruiz

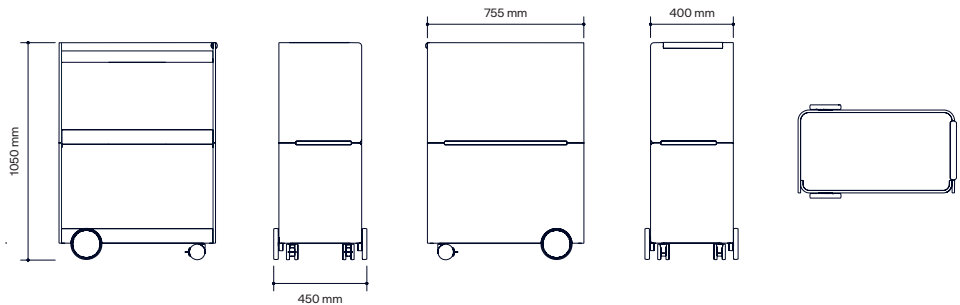

Troy is a trolley that will extend the offer of any room. With a calm form pressed wooden front, a technique that Edsbyn has mastered for over 100 years, Troy gently blends in with the interior while simultaneously being open for service. Looking back in history at a long line of trollies, emphasis has traditionally been

placed either on strong aesthetics or function, but in Troy these two aspects have been perfected together. And with a high podium size version, Troy can also accommodate planned or spontaneous talks.

"A trolley needs to be more than just shelves on wheels." /Mario Ruiz

### Edsbyn Factory

The secret of our success is the ability to change and adapt. What began in 1899 as a small carpentry, grew in to be one of the largest furniture factories in the Nordics. Between 1934–1984 we produced wooden skis for the Ministry of Defence, Olympic gold winners and families. Out of the waste material we manufactured pin-back chairs, which were used to furnish the Swedish welfare state.

As one of Sweden's oldest furniture companies, with a firm base in Edsbyn, we can proudly say that we have played a part in making the label Swedish Design synonymous with good form and function.
