

# Shape Storage

Design Edsbyn

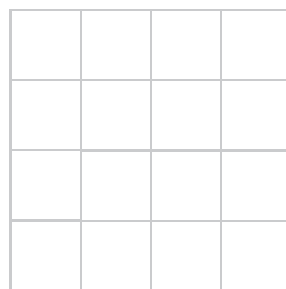

Dynamic and practical storage with a focus on flexibility and options to meet the unique needs of each room. All modules can be combined both horizontally and vertically. Create your own storage by combining practical wardrobes with shoe racks, benches, and personalized storage. Doors are available in multiple heights and can be chosen with different types of locks, handles and knobs.

Recycling Unit

## Shape your Storage

All modules can be combined both horizontally and vertically. Shape Storage is a flexible and climate-smart storage that can both grow and change along with the need.

# EDSBYN

## Design

By Edsbyn

Shape Storage is designed to withstand daily use and high wear and tear in environments such as our offices, workplaces, and public spaces. The modules can be used individually or combined to create practical storage solutions, tranquil seating areas with a room within a room, or stylish shelves for decoration.

## Climate-smart

### Sustainability & Function

- A long and thorough development process has resulted in a product with reduced material consumption.
- The chipboards used are made from 95% postconsumer-waste and 5% pre-consumer waste.
- Modules, fronts, and shelves can easily be replaced with the changing needs of the business.
- Shape Storage is Swedish-designed and is manufactured upon order by our employees in Edsbyn's own furniture factory.

## Flexibility

### Mix

Mix different modules.

### Customize

Customize the storage according to your needs.
